PROTECTOR OF OUR WILDLIFE HERITAGE

Fédération québécoise
des chasseurs et pêcheurs

THE FédéCP

Fédération québécoise
des chasseurs et pêcheurs

1946
Year of foundation

NPO
It is one of the oldest wildlife organizations in Québec.

Fédération québécoise
des chasseurs et pêcheurs

MISSION

Its mission is to represent hunters
and anglers, to defend their interests;
to contribute to education on safe practices;
and to actively participate in the conservation
and emphasise the value of wildlife in order
to ensure the sustainability of resources
and the perpetuation of hunting and fishing
as traditional, heritage and leisure activities.

Fédération québécoise
des chasseurs et pêcheurs

VISION

To be the recognised leader in education, representation and advocacy of hunters and anglers, and in the promotion of safe hunting and fishing in Quebec.

VALUES

- Volunteer work
- Respect of people, genders and communities
- Recognition of wildlife as a collective asset
- Equitable sharing of wildlife resources
- Ethical behaviors in the practice of hunting and fishing
- The promotion of wildlife harvesting activities and their economic values
- The preservation of wildlife and its habitats

STRATEGIC ISSUES

- Development of hunting and fishing
- Conservation and its challenges
- Recruitment (fishing, hunting, Regional Boards, Provincial Board, volunteers, etc.)
- Universal accessibility (access to bodies of water, peri-urban areas, etc.)
- Promotion of a national wildlife policy

BENEFICIAL IMPACTS
OF HUNTING AND FISHING

Hunting and fishing ore important assets that contribute to the collective wealth of Quebecers. When developed responsibly, hunting and fishing help with the conscientious enhancement of wildlife resources.

Without the intervention of hunters and anglers, some animal populations would grow to the point that the government would have to implement costly control measures.

Defends the rights of hunters and anglers

Founded in 1946, it safeguards the sustainability of hunting and fishing in Québec by defending the accessibility of these activities and promoting them to encourage the development of the next generation of hunters.

Preserves and enhances wildlife habitats

Founded in 1980, this is the first Québec foundation dedicated to restoring wildlife habitats and developing the next generation of hunters.

It also offers associations various sources of funding for their projects.

Education

Founded in 1995, Sécurité Nature ensures that hunters and anglers practice their activities safely and ethically by adopting an appropriate code of conduct.

In Québec, this organization is responsible for providing courses for an education program on safety and wildlife conservation.

The program, called Programme d'Éducation en Sécurité et en Conservation de la Faune (PESCOF) is required study for obtaining a hunter's certificate.

ORGANIZATIONAL STRUCTURE

The federation's democratic structure is based on the involvement of volunteers.

MEMBERS

ASSOCIATIONS

REGIONALS

THE PROVINCIAL BOARD OF DIRECTORS

COMMITTEES

INSTRUCTORS

ORGANIZATIONAL STRUCTURE

Fédération québécoise
des chasseurs et pêcheurs

MEMBERS

The federation is made up of different types of members:

- INDIVIDUAL
- ASSOCIATIVE
- COMMUNITY
- PARTNER

ORGANIZATIONAL STRUCTURE

Fédération québécoise des chasseurs et pêcheurs

ASSOCIATIONS

310

hunting and fishing associations, shooting clubs and conservation organizations in every region of Québec.

ORGANIZATIONAL STRUCTURE

Fédération québécoise
des chasseurs et pêcheurs

REGIONALS

They work with regional partners to ensure accessible and sustainable hunting and fishing.

ORGANIZATIONAL STRUCTURE

Fédération québécoise des chasseurs et pêcheurs

THE PROVINCIAL BOARD OF DIRECTORS

14 regional presidents

4 co-opted members

1 president, elected by all member associations.

COMMITTEES

Using a consultation principle, the federation has temporary committees, along with two permanent committees, the **Waterfowl Committee** and the **Hunting Dogs Committee.**

ORGANIZATIONAL STRUCTURE

Fédération québécoise
des chasseurs et pêcheurs

INSTRUCTORS

470

volunteers, both men and women,
are involved in associations across Québec
that provide courses in their communities.

To improve the content and format
of these courses, Sécurité nature is constantly
attentive to what people need.

ORGANIZATIONAL STRUCTURE

Fédération québécoise des chasseurs et pêcheurs

INSTRUCTORS

MONITOR

A volunteer who provides quality courses, such as the PESCOF modules, to members of his or her community and elsewhere.

INSTRUCTOR

A monitor recognized for his or her experience and expertise, who trains and assists the monitors.

PESCOF* MANAGER

A volunteer who takes care of the complex but motivating task of coordinating all of their region's monitors.

* Programme d'Éducation en Sécurité et en Conservation de la Faune, managed in collaboration with the MFFP and the FédéCP.

FédéCP TOOLS

PROJECTS AND ACTIONS

HEADQUARTERS

In addition to permanent offices, various exhibitions and Boisé Héritage Faune are open to the public and admission is free. They are an important window on education and wildlife conservation.

REINTRODUCTION OF THE STRIPED BASS

(Operation renaissance)

Following a FédéCP initiative, several million striped bass were reintroduced into the St. Lawrence River. This species had disappeared in the mid-1960s.

Thanks to the involvement of many volunteers, striped bass are once again swimming in the river.

WILD TURKEY

To promote the wild turkey, the federation carried out a relocation program to accelerate the species' establishment in Québec.

Thanks to volunteers, the wild turkey is now part of our wildlife heritage and prospers in several regions.

IMAGE CAMPAIGN

Over the years, the Federation has developed and organized several campaigns to raise awareness about the values and importance of hunting, fishing, and the safe handling and storage of firearms.

CHASSEURS GÉNÉREUX

Chasseur Généreux is a game donation program to help people in need, carried out in collaboration with Food Banks of Québec.

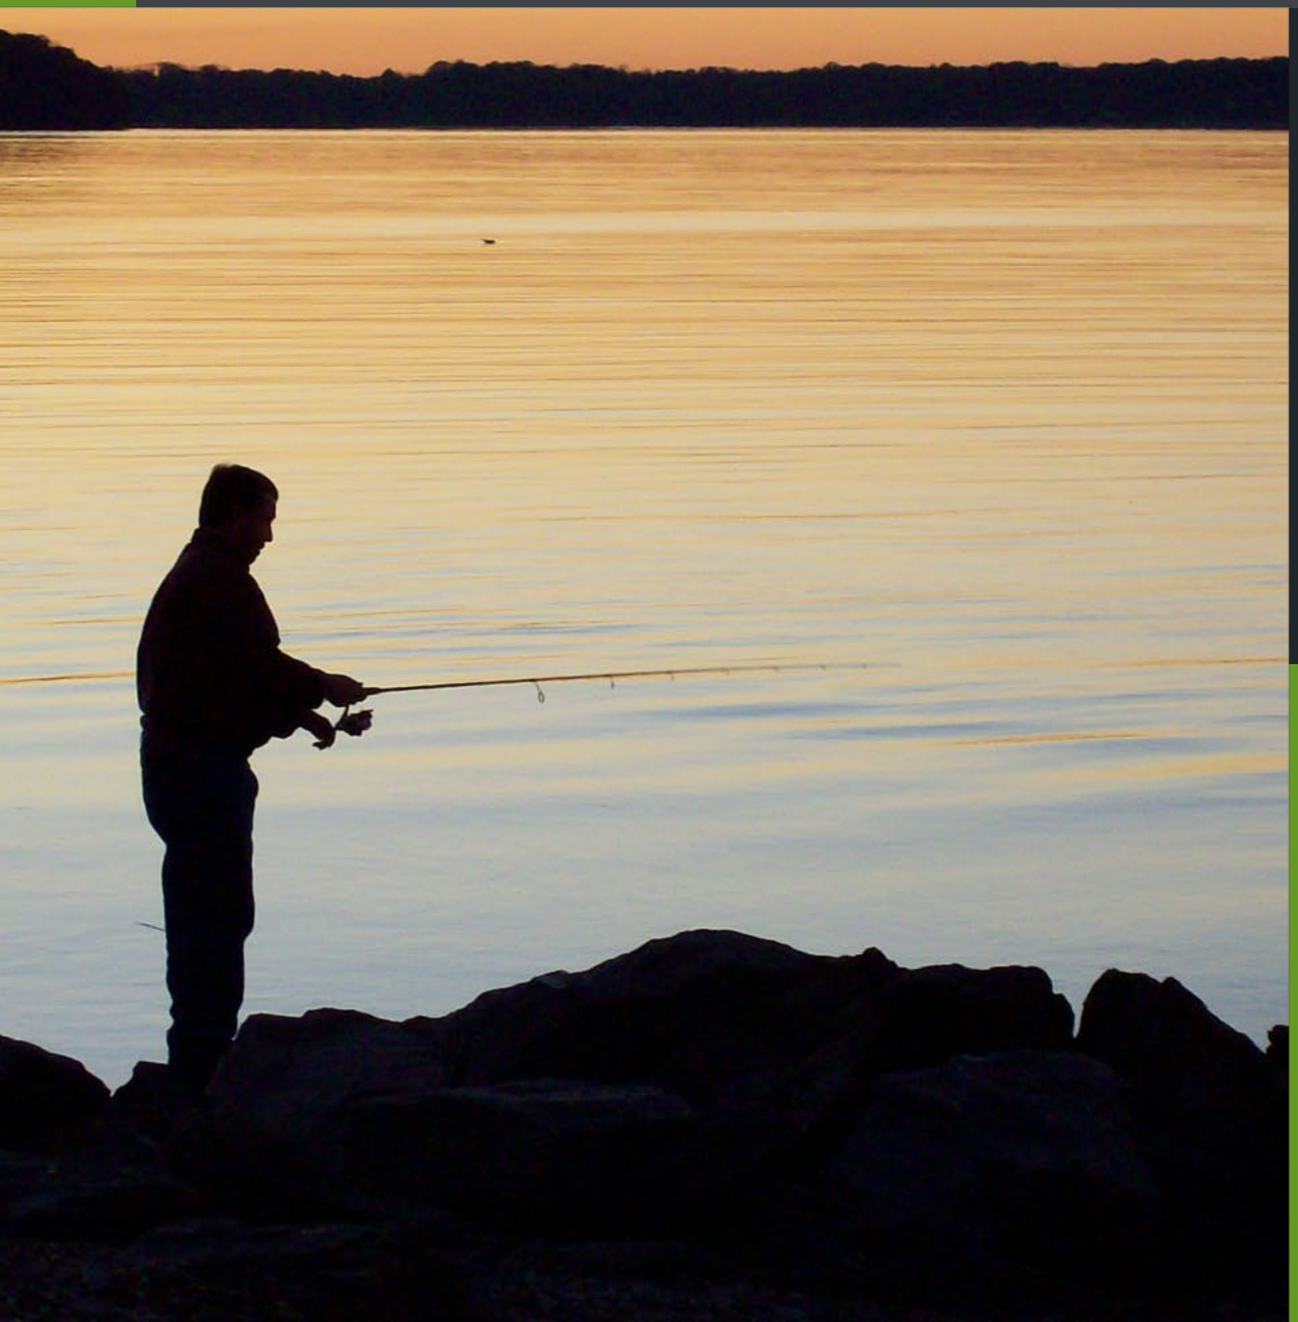
FAUNIQUEMENT FEMME

Fauniquement Femme is an activity that introduces hunting and fishing exclusively to women.

REGULATORY AMENDMENTS

Amending regulations is an important way to ensure healthy wildlife management and help Quebecers reap more benefits from wildlife resources.

The federation keeps enthusiasts informed and stays actively involved at this level for the benefit of habitats, wildlife and users.



REPRESENTATION OF HUNTERS AND ANGLERS IN RECURRENT FILES

- Firearms
- Access to bodies of water
- Hunting in peri-urban areas
- Revitalization of volunteerism
- Management plans for different species
- Etc.

A PROVEN REPUTATION

Thanks to its democratic structure, initiative and avant-gardism, the federation and its subsidiaries are known across North America.
